The upgraded PWX Service will commence in early November with *MV Frida Russ*, on voyage 2449S. This will be reflected on this week's schedule.

The PWX Service operates on an unparalleled **weekly** frequency from Southeast Asia to Papua New Guinea, Solomon Islands, New Caledonia, and Fiji, with connections in Fiji and New Caledonia to the Pacific Islands of Tonga, Vanuatu, Samoa, American Samoa, and Tahiti. The hallmark of our PWX service is **fixed-day arrival windows**, which offers improved reliability for cargo delivery.

Swire Shipping continues to invest in our product offerings and improve our service frequencies so that we can improve overall customer experience and save our customers' time. The latest in our product offerings, the upgraded PWX Service reflects our commitment to better serve customers and communities in the Asia-Pacific region.

Yours sincerely,
